BUYERSBARRICADES.COM

About Us

1984

At **Buyers Barricades**, it is critically important to provide superior service and peace of mind knowing your work zone or special event will be safe for the traveling public, your employees, and event participants.

We believe the quality of the equipment we sell and rent to our customers directly reflects the pride we take in our job. **We demand the industry's best because our customers expect the best.**

Quality customer service has been our top priority since Steve Buyers started our DFW location in 1984, now led by Shelba Buyers. We continue to provide excellent support and service to our customers through our three newer businesses, Buyers Barricades Houston, LLC., Buyers Barricades San Antonio, LLC. and Buyers Safety, LLC.

24-Hour Emergency Service

SALES

We are proud to offer competitive pricing and quick order fulfillment on a wide variety of traffic control devices, PPE, custom project signs, TMAs and power units.

MONTHLY MAINTENANCE

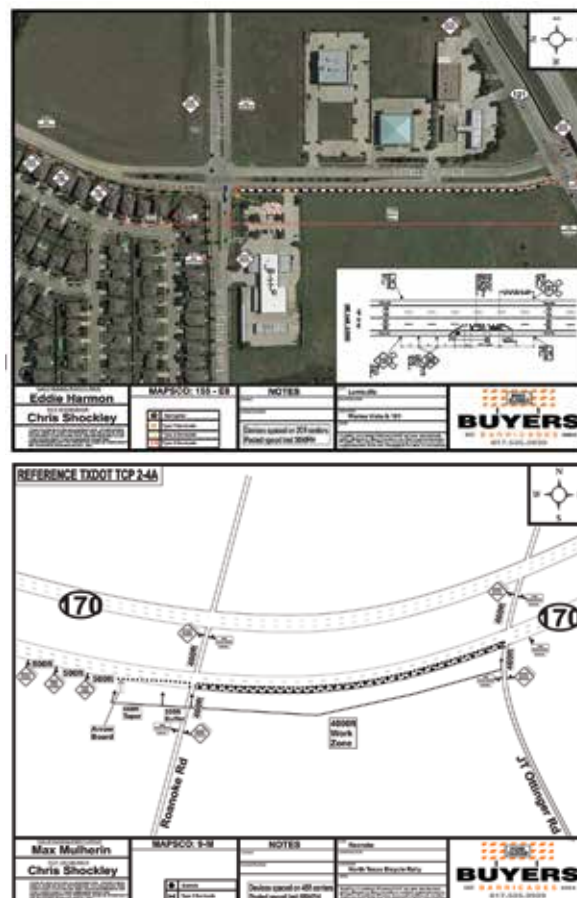

For long term projects, we offer monthly traffic control maintenance to keep your work zone clean and safe. A portable wash trailer is available to come to your job site to wash down dirty barricades.

PLANNING & TRAFFIC CONTROL PLANS

Traffic Control Planning

Whether your project calls for a simple lane closure or extensive computer-generated traffic control plan, we thoughtfully design each plan according to your unique specifications and requirements.

We design traffic control plans that meet the standards set by the Texas MUTCD (The Manual). Engineer Stamped Plans Available.

SPECIAL EVENTS

Without the proper traffic or crowd control planning, even a small event can quickly get out of control. Buyers Barricades offers a wide array of devices to improve traffic flow, direct crowds and more. Whether you are planning a small block party, a city wide race or something even larger, we can provide you with the proper barricade solutions for any event.

Recent Events

Susan G. Komen Race for the Cure
NASCAR Sprint Cup
Fort Worth Stock Show & Rodeo
Houston Astros Playoffs

SIGN SHOP

Our state-of-the-art sign shop fills all of your signage needs. Whether you need regulatory, warning, permanent or custom signs, know that every sign we produce meets MUTCD, state and local standards.

ON-SITE CONSULTATIONS

Our certified sales reps will be happy to meet you on site to discuss your project needs.

CERTIFICATIONS

DBE and HUB Certified (DFW Business)

Buyers Barricades now qualifies to meet both your Disadvantaged Business Enterprise (DBE) and Historically Underutilized Business (HUB) certification requirements. If any of your current or future projects have either of these requirements, we can help you meet your goals.

Work Zone Traffic Certified

All Buyers Barricades employees are WorkZone Certified. You can count on a certified member of our team to set up a safe work zone every time. Ask us how to get your team certified too!

Channelizing Devices

D-TOP DELINEATOR TUBES

42" H with a 12 lbs. base

Hole at top to mount a barricade light.

Slight indentation at the top to allow for the mounting of a cone sign.

Can be used in conjunction with a cone bar to create a barrier.

NAVIGATOR

42" H, Rubber Base 30lb.
20lb available by request.

Slim design is perfect for narrow street projects.

Loop/Grabber handle is convenient for easy movement and placement.
Meets MUTCD Standards.

OPPOSING LANE DIVIDER

Panel dimensions: 36" H x 12" W
Base dimensions: 34" L x 14" W

Delineation system used at the centerline to separate opposing traffic on a two-way road.

Reactive spring system returns the panel to its original position after impact and reduces replacement cost. Meets MUTCD standards.

CHANNELIZING DEVICES

12" TRAFFIC CONE

8.5" base, 1.5 lb. each.

LIME GREEN CONE

36" H, 28" H, 18" H sizes available.

Custom stenciled cones available upon request.

18" TRAFFIC CONE

10.5" base, 6" reflective collar 3M high intensity grade sheeting, 3 lb. each.

28" TRAFFIC CONE

14" base, 6" and 4" reflective collar 3M high intensity grade sheeting, 7 lb. / 10 lb. slim and wide body available.

36" TRAFFIC CONE

14.5" base, 6" and 4" reflective collar 3M high intensity grade sheeting, 10 lb. each.

CHANNELIZING DEVICES

BARREL WITH TIRE RING

36" H x 22.94" W

Four tiers of reflective sheeting.
(HIP or Diamond Grade)

Visible on the road, this bright orange barrel has UV inhibitors to minimize fading.

Stackable tapered design, predrilled holes for barricade lights or reflectors, and built-in carrying handle. Meets MUTCD standards.

Add additional visibility to any barrel by adding a two sided barrel reflector.

VERTICAL PANEL

20-30 lb. rubber base

Designed to withstand repeated impacts and minimize damage to vehicles.

Stacks for easy storage, accepts standard "D" cell barricade lights.

Available in orange and white, and variety of sheeting options. Meets MUTCD standards

PERMANENT MOUNTED

SURFACE MOUNT CHANNELIZER POST

Channelizer posts are mounted into the ground. Clover leaf design of the post provides better rebound than simple round tubes. Available in orange, black, white and yellow.

CITY POST

High Performance Delineator. One-piece construction with easy spin-in installation. Installs into concrete or asphalt. Great for bike lanes, parking lots, airports, HOV lanes and pedestrian walkways. Can take 100 impacts at 60 mph.

TYPE I
A FRAME BARRICADE

42" H X 96" L

Easy to set up, transport and store.
Perfect for crowd control, block parties and parking lots.

NCHRP-350 accepted,
meets MUTCD standards.

TYPE II
GALVANIZED STEEL LEGS
OR PLASTIC LEGS

42.3" H x 24" W

NCHRP-350 accepted,
meets MUTCD standards

TYPE III

5' H x 8' W

Panels are sheeted on both sides.
Galvanized steel feet, NCHRP-350
accepted, meets MUTCD standards.

BARRICADES / RUMBLE STRIPS

SANDWICH BOARD

36" H x 24" W

Outside dimensions:
45" H x 25" W x 3" D

All plastic frame, holds two signs.

Sign face can receive vinyl sheeting,
metal, Coroplast™, or acrylic sign blanks.

END OF ROAD PERMANENT BARRICADE

Custom sizes available and can be installed into
soft ground or on guardrail.

CROWDCAFE CROWD CONTROL

Plastic pedestrian barricade. Anti-trip, flat steel feet. Ideal for
traffic construction areas. Tamper resistant locking hooks.

RUMBLE STRIPS

RUMBLE STRIPS

Temporary portable rumble strip TXDOT approved
two sections make one rumble strip, 11' long
when assembled.

Water Barricades & Impact Attenuators

WATER BARRIER

6' L x 32" H x 18" W

Durable polyethylene plastic minimizes cracking and
breaking. Hinge design allows for a 30-degree pivot
between sections. Will accept plastic or chain-link fence.

Standard colors are orange or white. Additional colors
available upon request.

TL-1 and TL-2 MASH Rated.

SENTRY WATER-CABLE WALL TL-2 AND TL-3

72" L x 43" H x 22" W

Freestanding continuous longitudinal water-cable
barrier. Safetly control and stop vehicles. Water in
barricades absorbs impacting vehicles energy and
cables using TL-2 and TL-3 Rating.

Sentry
Water-Cable Barrier

WATER BARRICADES & IMPACT ATTENUATORS

WATER BARRIER WITH FENCE PANEL

Fence panel easily retrofits to the Traffix Water-Wall to create an imposing and secure barrier. Interlink with Traffix Water-Wall to provide better overall stability and allows for changes in ground height.

No need to remove fence to fill Traffix Water-Wall. Fill caps are easily accessible with fence installed.

We sell windscreen! Call for details.

SLED IMPACT ATTENUATORS

Sentry Longitudinal Energy Dissipater, FHWA accepted for shielding the blunt end of concrete, steel and water-filled barriers. Crash cushion can be installed quickly and easily. TL-2 and TL-3 models available.

Airport Barricades

AIRPORT BARRICADE LIGHT

Ni-Mh battery included. (Sub C battery with flat top 1.2C 3400mAh high capacity). Photocell Sensitivity - 100-250 Lux. 4 LED bulbs. 50-55 flashes per minute.

AIRPORT RUNWAY CLOSURE MARKER X

5' H x 30' W or 10' H x 60' W

Yellow poly tarp waterproof. Hems are reinforced with poly twine.

AIRPORT FLAG

36" H x 36" W

Orange and white sewn nylon airport flag.

LOW PROFILE AIRPORT BARRICADE

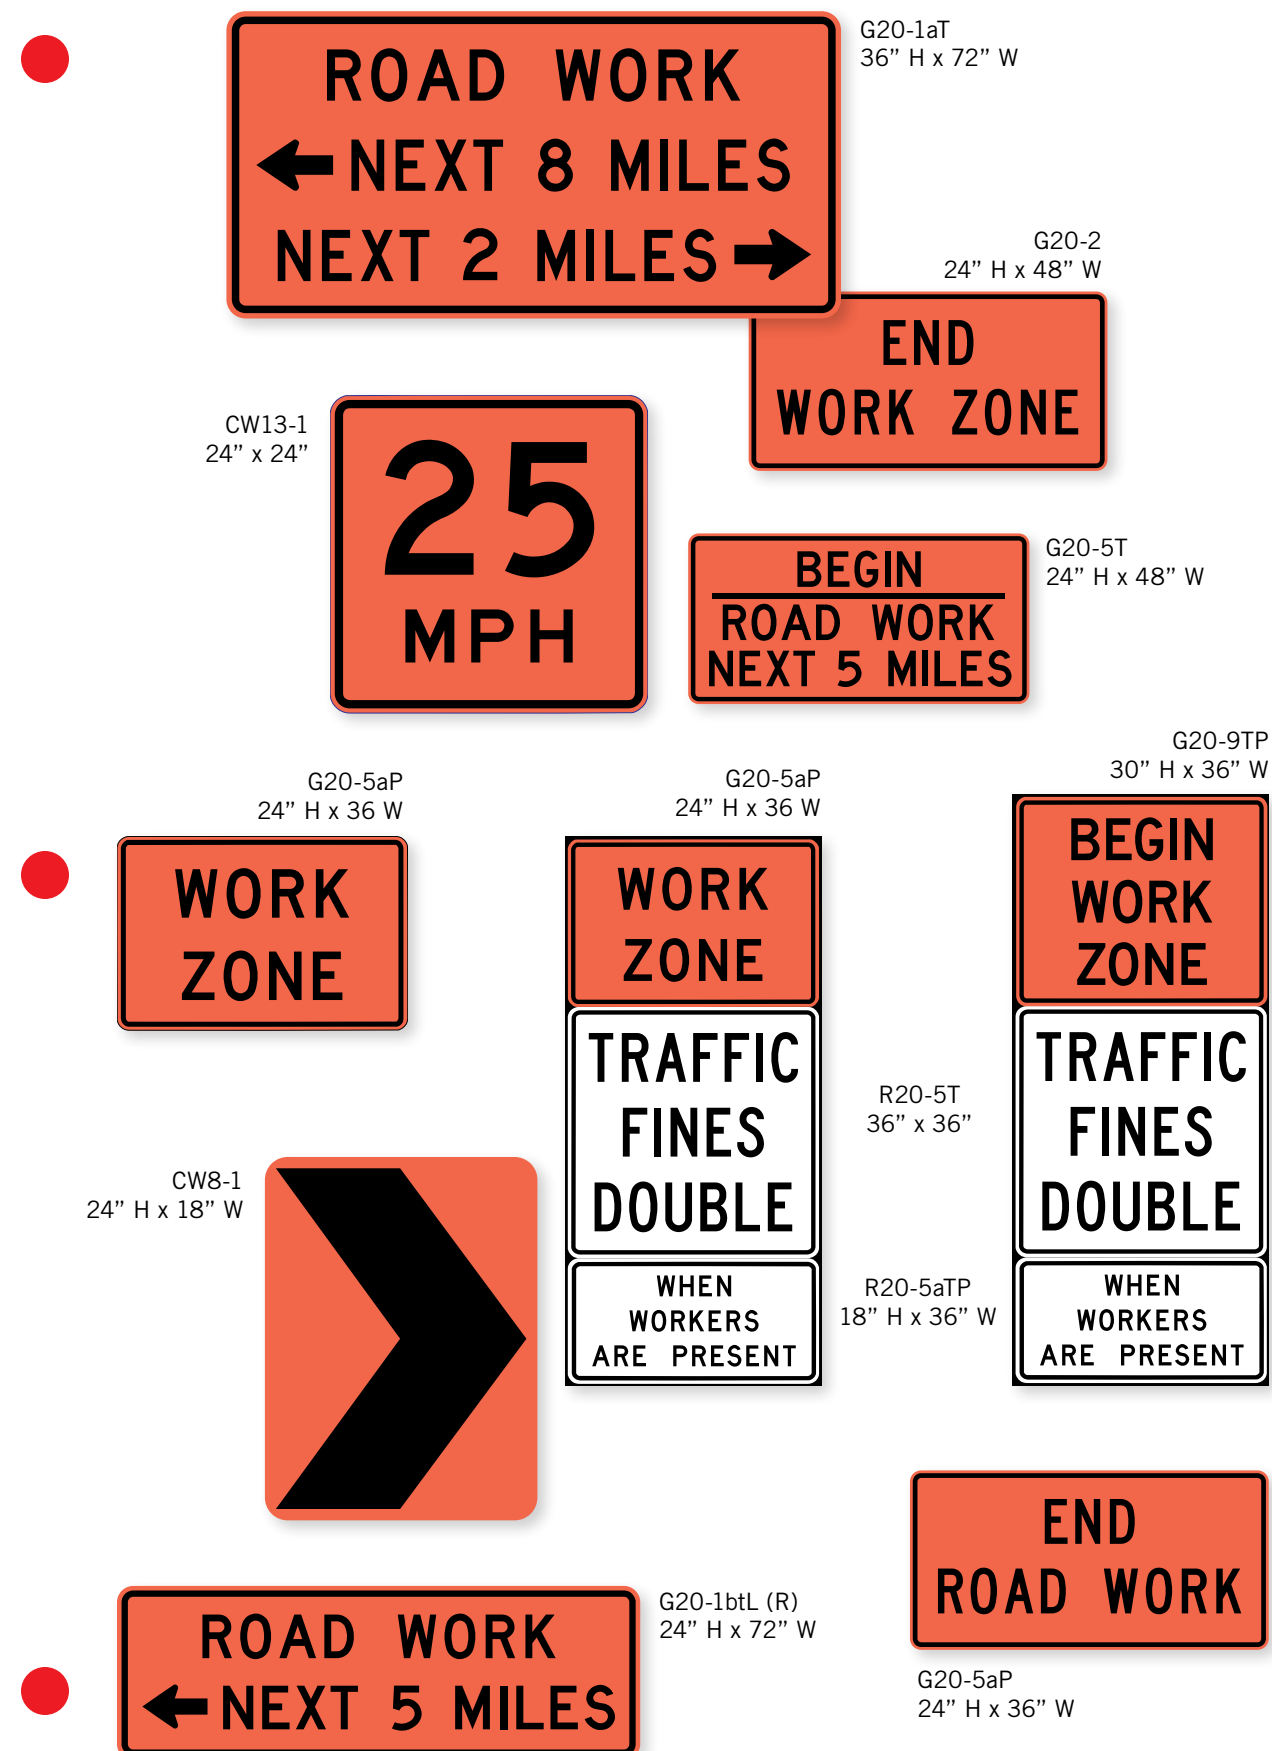

10" H x 96" L x 10" W

Designed to withstand the high winds in airport construction zones. Orange and white reflective sheeting on both sides, accepts two round screw on lights or standard bolt on barricade lights, and has two flag sockets.

REGULATORY & WARNING SIGNS

Project Signs & Custom Signs

Roll-up Signs

Stands

ROLL-UP SIGN

- 48" Reflective
- Roll-up signs offer full-size signage in a lightweight and easy-to-store design.
- Fiberglass cross bracing for support, velcro strap for storage.
- Variety of sign messages available.
- Meet MUTCD requirements, NCHRP-350 compliant when used with NCHRP-350 stand.

FIBERGLASS RIBS REPLACEMENTS

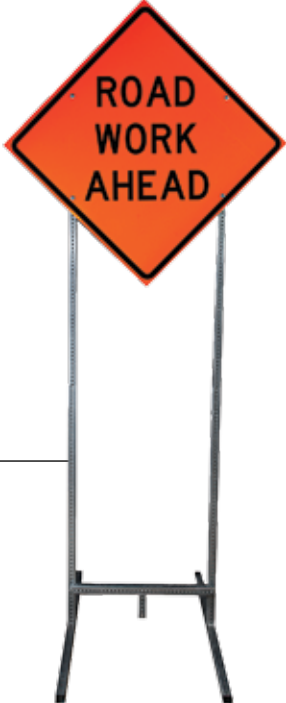

Steel sign stands are available in 5' and 10' heights.

10' T-LEG SINGLE POST

- Skid mounted perforated square steel tubing sign support, 1-3/4" single post.
- (For TXDOT applications)

10' T-LEG DOUBLE POST

- Skid mounted perforated square steel tubing sign support, 1-3/4" double post.
- (For TXDOT applications)

5' T-LEG SINGLE POST

- Skid mounted perforated square steel tubing sign support, 1-3/4" single post.
- (For low volume applications)

BIG BUSTER SIGN STAND

The Big Buster stand has a step-n-drop leg feature that allows for easy set-up, take down, and movement around job sites. Will hold 30", 36", and 48" aluminum, wood, plastic, or roll up signs.

Big Buster flex stand can achieve bottom heights of 12 inches to 7 feet.

Both Big Buster and Little Buster feature a built in flag bracket!

LITTLE BUSTER SIGN STAND

The Little Buster stand has a step-n-drop leg feature for easy set-up, take down, and movement around job site. Will hold 30", 36", and 48" aluminum, wood, plastic, or roll up signs.

Little Buster flex stand can achieve bottom heights of 12 inches to 5 feet.

STEP AND DROP STAND

Quick deployment, all four legs release at one time.

Aluminum construction, lightweight and durable.

NCHRP-350 accepted for 36" H or 48" H roll-up signs.

ZEPHYR STAND

28" H x 17 1/2" W

Portable sign stand is constructed of a steel plate molded into a recycled rubber base, weight 38 lbs. Rubber base is skid-resistant.

TRIBUSTER STAND

Tripod Sign Stand is durable and economical. NCHRP 350 compliant with 48" H x 48" W or smaller. Plywood, aluminum, aluminum poly laminate, plastic and roll-up sign materials. A built-in 3-flag holder secures two or three standard 3/4" wood dowel flags above the sign.

STAR ANCHOR

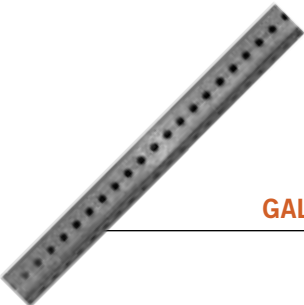

2" H x 2" W x 30" L
also available in 36" length.

Installing long-term temporary signs directly into the ground is quick and easy. Star-shaped bottom keeps dirt from filling the anchor.

GALVANIZED STEEL SQUARE TUBING

1-3/4" and 2" steel
Post in 10', 12', 14' and 16' lengths.

TRIANGLE SLIP BASE ASSEMBLY SET

TRIANGLE COLLAR ASSEMBLY FOR ROUND POST

ROUND POST FOR TRIANGULAR SLIP BASE

Electronic Equipment & TMAs

Distributors of:

ARROW BOARD

Available for rental or purchase.

MESSAGE BOARD

Available for rental or purchase.

TRUCK MOUNTED ATTENUATOR

Available for rental or purchase: Trucks are installed with Traffix Scorpion Impact Attenuator.

RADAR TRAILER

Available for rental or purchase: slow down drivers with the use of a portable radar-speed trailers. Commonly used in school zones and high-accident work areas.
