THE BUYERS

Pictured Left to Right: Blake Tuggle, Steve Buyers, Shelba Buyers

ABOUT US

Buyers Barricades was founded in 1984 and has earned a renowned reputation for service in the Traffic Control Industry. It is our goal to provide safe construction work zones by working closely with government agencies, construction companies, municipalities, and commercial and residential communities. We are committed to offering an improved level of quality within our industry, marked by dependable and timely service at competitively priced rates. As an organization, we are dedicated to quality and operational excellence. We have continually satisfied client requirements by providing fast and accurate traffic control plans, state of the art equipment, traffic signage, and certified traffic control personnel. We are honored to be involved in many premier projects across the state of Texas.

At Buyers Barricades, we believe in our customers and are committed to building lasting relationships, working together to achieve maximum satisfaction and value. The team at Buyers Barricades takes pride in our local business involvement and are members in many trade organizations including NUCA, TEXO, ASA, AGC, and ATSSA. We also firmly believe in giving back to the community by supporting many local charitable organizations through giving and volunteering our time. We are honored and proud of the work we do to continue to provide protection to customers and the traveling public in work zones.

1984

Opened Buyers Barricades office on 1st Street in Fort Worth.

Steve Buyers founded Buyers Barricades after seeing a lack of service in the traffic control industry.

2001

It's time to go down south; Buyers Barricades expands their operations to Houston!

2013

Having outgrown the 1st Street office, Buyers Barricades opened a newly expanded office on Baker Blvd. in Richland Hills.

2014

After noticing another need in the industry, Blake Tuggle launches Buyers Safety to provide PPE with the customer focused service that has become synonymous with the Buyers

2018

With Texas steadily growing and improving their infrastructure, Buyers Barricades opens in San Antonio to better service the state!

2018

Following a pattern of steady growth, Buyers launched their Austin location in the fall of 2023. With offices in every Texas metro area, Buyers can quickly and efficiently service the entire state.

2023

HISTORY &

PRODUCT SALES

We are proud to offer competitive pricing and quick order fulfillment on a wide variety of traffic control devices, PPE, custom project signs, and power units.

SIGN SHOP

50,000+ SIGNS A YEAR

Our state-of-the-art sign shop fills all of your signage needs. Whether you need regulatory, warning, permanent or custom signs, know that every sign we produce meets MUTCD, state, and local standards.

MONTHLY MAINTENANCE

For long term projects, we offer monthly traffic control maintenance to keep your work zone clean and safe.

SERVICES

SERVICES OFFERED:

- Daily/nightly lane closures
- Traffic control product rental & sales
- Installation of purchased materials
- Electronic Message Boards & Arrow Boards
- New model TMA rentals
- Water Barricades
- Public, commercial, and heavy highway subcontract work to General Contractors
- Temporary ITS Smart Work Zone rentals
- Traffic Control Plans (engineer stamped plans available)
- Special Event services
- Material supply solutions for projects of all sizes
- Flagging services

SAFETY REPORTS

Our team offers comprehensive safety reports, performed by our trained and certified traffic safety professionals on any job site by request.

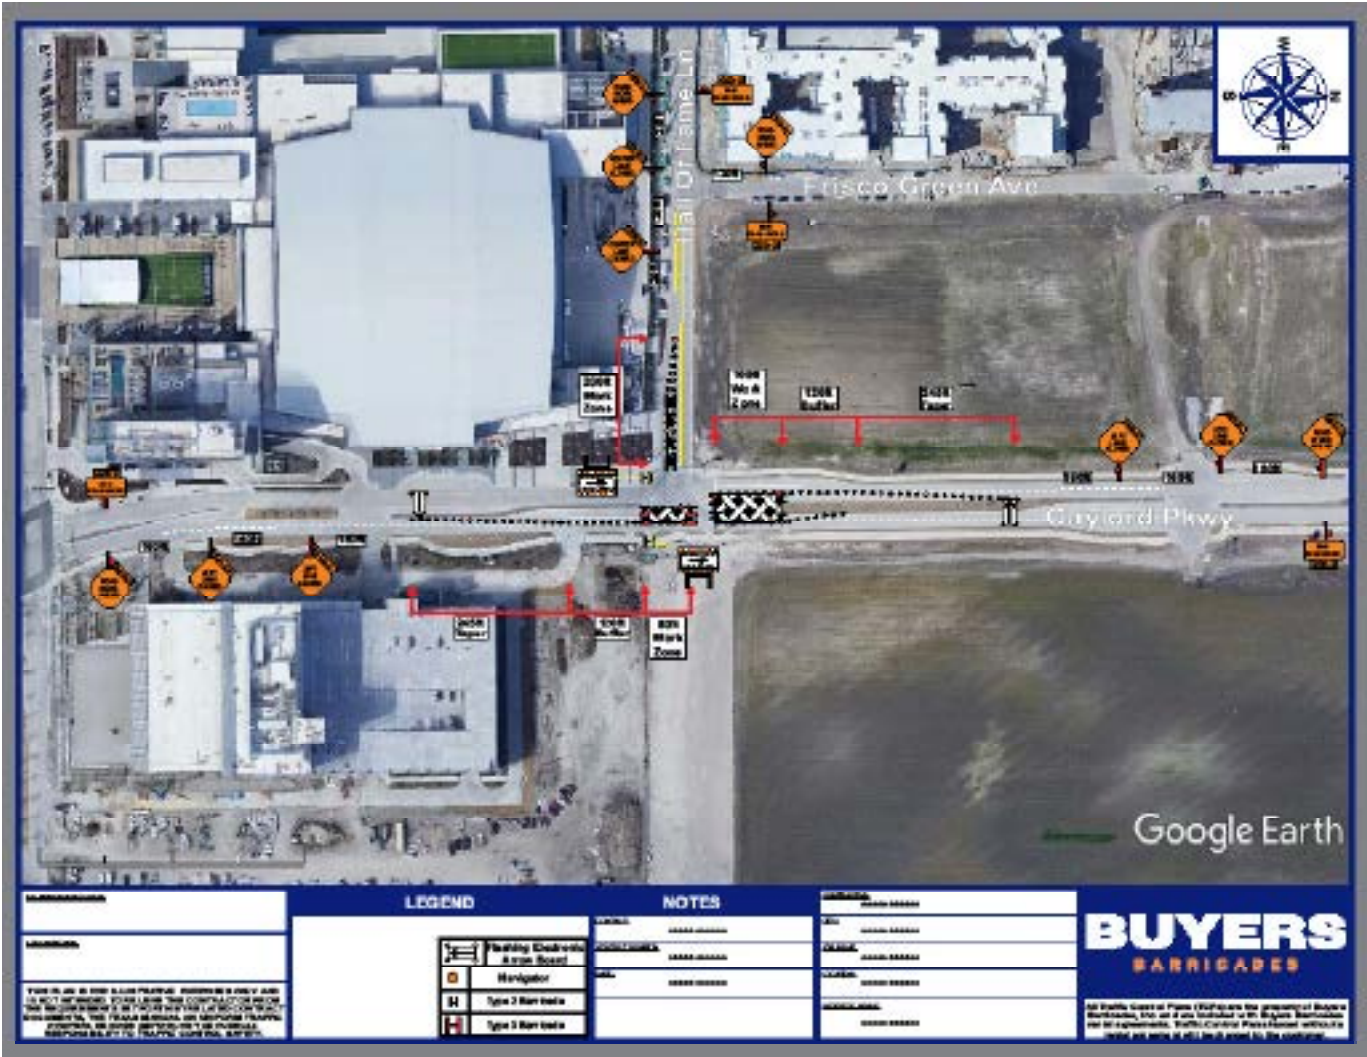

TRAFFIC CONTROL PLANNING

Whether your project calls for a simple lane closure or extensive computer-generated traffic control plan, we design each plan according to your unique specifications and the city's requirements.

We design traffic control plans that meet the standards set by the Texas MUTCD (The Manual).

Engineer Stamped Plans Available.

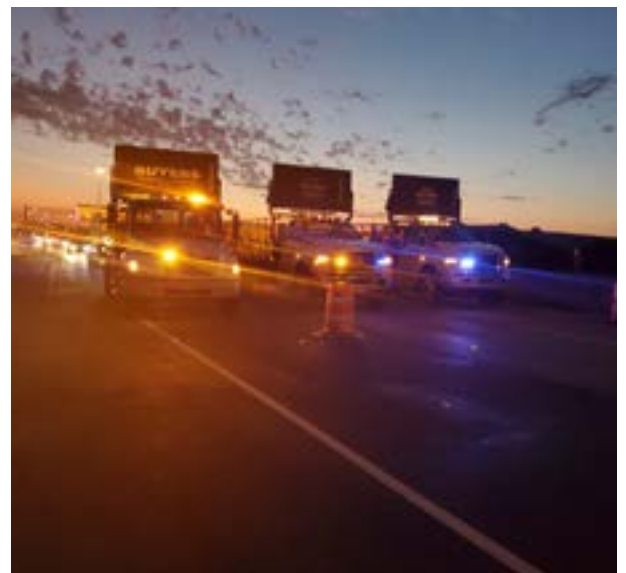

NIGHT CLOSURES

At Buyers Barricades, we understand the critical nature of traffic control services on roads and highways. That's why we take pride in being available around the clock, 24/7, to meet your needs. Our commitment to ensuring the smooth flow of traffic and enhancing safety knows no time constraints. Whether it's day or night, weekdays or weekends, you can rely on us for prompt and reliable service.

24 HOURS **7 DAYS**
365 DAYS A YEAR **A WEEK**

D-TOP DELINEATOR TUBES

42" H, 12 lb. base

Hole at the top to mount a barricade light.

Slight indentation at the top to allow for mounting of a cone sign

NAVIGATOR

42"H, 30 lb. base

*20 lb. base available by request

Slim design, perfect for narrow street projects.

Loop/Grabber handle for easy movement and placement.

Meets MUTCD standards.

OPPOSING LANE DIVIDER

36" H x 12" W – Panel Dimensions
34" L x 14" W – Base Dimensions

Delineation system used at the centerline to separate opposing traffic on a two-way road.

Reactive spring system to return panel to original position after impact.

Meets MUTCD standards

CHANNELIZING DEVICES

LIME GREEN CONE

36"H, 28"H, and 18"H sizes available.
1.5 lb. each

No reflective collar.

PVC Cones provide excellent stability and anti-skid performance.

12" TRAFFIC CONE

8.5" base, 1.5 lb. each

No reflective collar

PVC Cones provide excellent stability and anti-skid performance.

18" TRAFFIC CONE

10.5" Base, 3 lb. each

6" reflective collar with 3M high intensity grade sheeting.

PVC Cones provide excellent stability and anti-skid performance.

28" TRAFFIC CONE

14" base, 7lb./10lb. slim and wide body available

4" reflective collar with 3M high intensity grade sheeting.

PVC Cones provide excellent stability and anti-skid performance.

36" TRAFFIC CONE

14.5" base, 10 lb. each

6" and 4" reflective collars with 3M high intensity grade sheeting.

PVC Cones provide excellent stability and anti-skid performance.

Add additional visibility to any barrel by adding a two sided barrel reflector.

VERTICAL PANEL

8" W x 36"H – Panel
20 & 30 lb. base available
Available in a variety of sheeting options.

Designed to withstand repeated impact and minimize damage to vehicles.

Stacks for easy storage, accepts standard "D" cell barricade lights.

Meets MUTCD standards.

BARREL WITH TIRE RING

36" H x 22.94" W
10-20 lb. tire ring

Four tiers of reflective sheeting (HIP or Diamond Grade). UV inhibitors to minimize fading.

Stackable tapered design, predrilled holes for barricade lights or reflectors, and built-in carrying handle.

Meets MUTCD standards.

PERMANENTLY MOUNTED

SURFACE MOUNT CHANNELIZER POST

Various Heights
Available in orange, black, white, and yellow.

Channelizer posts are mounted into the ground. Clover leaf design of the post provides better rebound than simple round tubes.

CITY POST

Various Heights, 3.25" Diameter

High performance delineator with easy spin-in installation. Installs into concrete or asphalt. Can take up to 100 impacts at 60mph.

Great for bike lanes, parking lots, airports, HOV lanes, and pedestrian walkways.

Don't see what you need? Call us and we can order it!

ELECTRONIC EQUIPMENT & TMAs

RADAR TRAILER

Slow down drivers with the use of a portable radar-speed trailers.

Commonly used in school zones and high-accident work areas.

Available for rental or purchase.

LIGHT TOWER

Diesel or solar powered light tower, easy to transport, 30-gallon fuel tank for a 60-70 hour run time before refueling.

Each light can be aimed independently without the use of tools.

*Available by special order.

MESSAGE BOARD

Screen Size - 75" H x 138" W
Appx. 2640 lb.

The full matrix allows the greatest flexibility for displaying any type of message — large or small letters, graphics, and symbols. Perfect for a wide variety of applications, a multitude of functions and options make these signs extremely versatile. Meets MUTCD standards.

ARROW BOARD

Board Size - 48" H x 96" W
Appx. 1250 lb.

Superior visibility. Easy to operate and maintain. 15-light and 25-light models. Maintenance-free batteries. Meets MUTCD standards.

TRUCK MOUNTED ATTENUATOR

Available for rental or purchase: Trucks are installed with Traffic Scorpion Impact Attenuator.

WORK ZONE

INTELLIGENT TRANSPORTATION SYSTEMS (ITS)

WHAT IS 'ITS' AND HOW DOES IT WORK?

ITS uses real-time data, which is transferred through processing technology and communicated to drivers through a dynamic messaging system. The data is communicated through real-time dynamic applications including dynamic messaging, live videos, real-time travel info, mobile apps, and accident and safety alerts. Common ITS implementations include:

- "Trucks Entering Highway" warnings
- Queue detection-and-warning systems
- Portable camera systems
- Crash prevention and safety
- Traveler information applications
- Travel-time systems
- Event-traffic management
- Collision avoidance systems
- Dynamic late-merge systems
- Portable ramp metering
- Doppler radar systems
- "Speed Ahead" warnings
- Freeway and arterial management

SAVE LIVES

- Informs drivers of hazardous road conditions so they can take precautionary measures and avoid fatal accidents
- Offers a safer work environment for construction and transportation workers

SAVE TIME

- Offers alternate routes and options to reduce delays
- Decreases accident risk, which helps to avoid pile-ups and further delays

SAVE MONEY

- Studies have concluded that these systems save more money than they cost
- Profits are gained through lower accident rates, fuel expenses and emissions

TRAFFIC CAMERA SYSTEMS

AVAILABLE BY SPECIAL ORDER!

BARRICADES

TYPE I A-FRAME BARRICADE

42"H x 96"L

Easy to set up, transport, and store. Perfect for crowd control, block parties, and parking lots.

NCHRP-350 accepted, meets MUTCD standards.

TYPE II BARRICADE - GALVANIZED STEEL OR PLASTIC LEGS

5 ft. H x 8 ft. W

Panels are sheeted on both sides. Galvanized steel feet. NCHRP-350 accepted, meets MUTCD standards.

TYPE III BARRICADE

5 ft. H x 8 ft. W

Panels are sheeted on both sides. Galvanized steel feet. NCHRP-350 accepted, meets MUTCD standards.

SANDWICH BOARD

45" H x 25" W x 3" D
Holds two 24" W x 36" H signs
Available in-stock white, or special order colors.

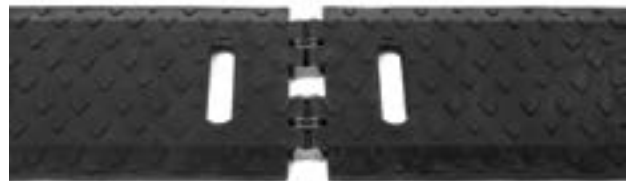

All plastic two-sided stands. Vinyl signs can be applied directly to sign face.

TRAFFIX URBANITE ADA BARRICADE

72" L x 3" W x 38" H | 23 lb. each

Create a continuous, hand guided, safe passage through work zones.

UV stabilized, high density polyethylene. Quickly links together in 6 foot sections to allow flexibility in creating safer pedestrian pathways.

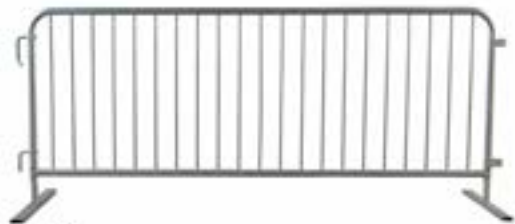

RUMBLE STRIP

13" W x 3/4" H x 132" L

Temporary portable TxDOT approved rumble strip.

Two sections, 11 ft. long when assembled. Covers an entire lane.

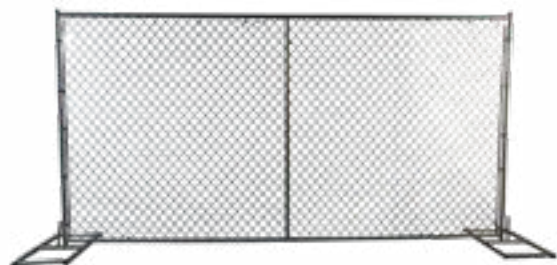

BARRICADES CONT.

STEEL PEDESTRIAN BARRICADE

7ft 5" W x 3ft 7.3" H

16-gauge tubing, hot dip galvanization to prevent corrosion. Welded hooks ensure a positive interlocking of barricades. Bridge and flat foot available.

TEMPORARY FENCE PANELS

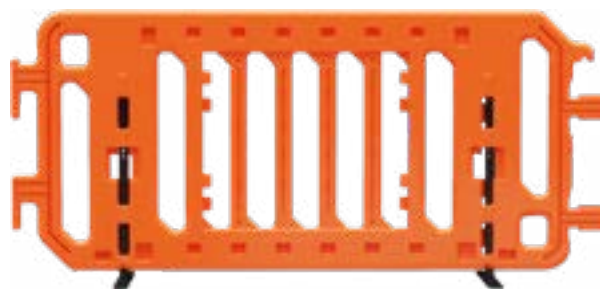

6 ft. H x 12 ft. W

Free standing fence panel. Quick and convenient solution for event and jobsite enclosures. Sand bags recommended to provide stability.

END OF ROAD BARRICADE

Available in 28', 36', or 42'
Custom lengths on request and can be installed into soft ground or on guardrail.

CROWDCADE™ DELUXE CROWD CONTROL SYSTEM

74"W x 39.5"H

Sign Dimensions – 29.5"W x 26"H

Available in orange and white. Other models available.

Thick walled, plastic barricade with steel legs and feet.

Unique quick-change system makes it easy to insert signs.

STEEL PLATES

| SIZE | THICKNESS | WEIGHT IN LBS. |
|----------|-----------|----------------|
| 4' x 8' | 1" | 1,306 |
| 5' x 10' | 1" | 2,042 |
| 6' x 10' | 1" | 2,450 |

WINDSCREEN

6 ft. H x 50 ft. L

Colors in stock: Green and Black

Other colors available by special order.

Attaches to temporary fence panels with zip ties or hog rings.

AIRPORT RUNWAY CLOSURE MARKER X

5' H x 30' W or 10' H x 60' W

Yellow waterproof poly tarp.

Hems reinforced with poly twine.

AIRPORT FLAG

36" H x 36" W

Orange and White sewn nylon airport flag.
Ensures pilots can see runway hazards, equipment, and vehicles from the cockpit.

AIRPORT BARRICADES

LOW PROFILE AIRPORT BARRICADE

10" H x 96" L x 10" W

Designed to withstand the high winds in airport construction zones.

Orange and white reflective sheeting on both sides.

Accepts two round or square-mounted lights and two flag sockets.

360 BARRICADE LIGHT

Available lens colors: red, amber, clear, and green.
Also available in solar power.

Type D (360 visibility), D-Cell, 3 volt light, 3-way operation.
Steady On, Flashing, or Off. Only operates at night.

Automatically turns off during daytime to extend battery life.

WATER BARRIER

6' L x 32" H x 18" W

80 lbs. empty and 1,110 lbs. filled

Water-Walls pivot up to a 30° rotation for easy layout and encircling of job sites with end pin or fence t-pin, plus NEW corner pieces enable 90° linking between barriers.

Standard colors are orange or white. Additional colors available upon request.

TL-1 and TL-2 MASH Rated.

WATER BARRICADES

SENTRY WATER-CABLE WALL TL-2 AND TL-3

72" L x 43" H x 22" W

215 lbs. empty and 2,150 lbs. filled

Freestanding continuous longitudinal water-cable barrier. Safely control and stop vehicles. Water in barricades absorbs impacting vehicles energy and cables using TL-2 and TL-3 Rating.

WATER BARRIER WITH FENCE PANEL

Water Barrier: 6 ft W x 32" Tall

Fence Panel: 6 ft W x 4 ft Tall

Fence panel easily retrofits to the water barrier to create an imposing and secure barrier. Interlink with Traffic Water-Wall to provide better overall stability and allows for changes in ground height.

No need to remove fence to fill Traffic Water-Wall. Fill caps are easily accessible.

SLED IMPACT ATTENUATORS

22.5" W x 42" H
 Length and weight vary by model.

Sentry Longitudinal Energy Dissipater

FHWA accepted for shielding the blunt end of concrete, steel, and water-filled barricades.

Can be installed quickly and easily. TL-1, TL2, and TL-3 models available.

DELTA CRASH CUSHIONS

21 ft. L x 30" W x 32" H
 2,270 lb.

Attenuates energy evenly for all vehicle types with shear bolts tearing through cut-outs of various sizes and shapes.

Quick and easy installation reduces exposure to traffic.

MASH TL-3 non-grating re-directive crash cushion.

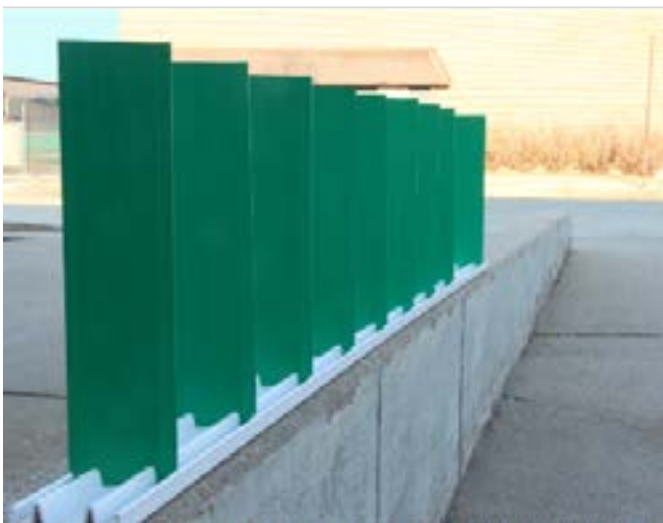

MODULAR GLARE SCREEN

Reduce highlight glare

Curtail gawking in work zones; pedestrian deterrent.

Unique "Snap in Place" design; Easy installation and removal on-site

IMPACT ATTENUATORS

LINDSAY ABSORB-M

21 ft. L x 24" W
 180lb (empty) | 2270 lb (full)

TL-3 water-filled cushion, suited for narrow areas where road and workspace is limited.

Installs in less than 15 minutes. Universal transition barrier takes time and complexity out of installation.

MASH tested to TL-2 & TL-3.

ROLL-UP SIGNS

FIBERGLASS RIBS REPLACEMENTS

ROLL-UP SIGN

48" H x 48" W

*Special order sizing available by request.

Roll-up signs offer full-size signage in a lightweight and easy-to-store design.

Fiberglass cross bracing for support, velcro strap for storage.

Variety of sign messages available.

Meet MUTCD requirements, NCHRP-350 compliant when used with NCHRP-350 stand.

Don't see what you need? Call us and we can order it!

STANDS

10' T-LEG DOUBLE POST

Skid mounted perforated square steel tubing sign support, 1-3/4" double post.

For TxDot applications

10' T-LEG SINGLE POST

Skid mounted perforated square steel tubing sign support, 1-3/4" single post.

BIG BUSTER SIGN STAND

Can achieve bottom heights of 12" to 7 ft.

Step-n-drop leg feature allows for easy set-up, take down, and movement around job sites. Holds 30", 36", and 48" aluminum, wood, plastic, or roll-up signs.

LITTLE BUSTER SIGN STAND

Can achieve bottom heights of 12" to 5 ft.

Step-n-drop leg feature allows for easy set-up, take down, and movement around job sites.

Holds 30", 36", and 48" aluminum, wood, plastic, or roll-up signs.

STEP AND DROP STAND

Holds a 36" x 36" or 48" x 48" roll-up sign securely without heavy springs or a bulky mast.

Compact, easy to carry and stores in small areas, and its tip resistant design effectively spills wind.

All parts of the Traffix Sign Stand can be easily replaced and a complete parts list is included with each stand.

ZEPHYR STAND

28" H x 17 1/2" W

Portable sign stand is constructed of a steel plate molded into a recycled rubber base, weight 38 lbs. Rubber base is skid-resistant.

TRIBUSTER STAND

Tripod Sign Stand is durable and economical. NCHRP 350 compliant with 48" H x 48" W or smaller. Plywood, aluminum, aluminum poly laminate, plastic and roll-up sign materials. A built-in 3-flag holder secures two or three standard 3/4" wood dowel flags above the sign.

GALVANIZED STEEL SQUARE TUBING

1-3/4" and 2" steel post in 10', 12', 14' and 16' lengths.

STAR ANCHOR

2" H x 2" W x 30" L
also available in 36" length.

Installing long-term temporary signs directly into the ground is quick and easy. Star-shaped bottom keeps dirt from filling the anchor.

TRIANGLE SLIP BASE ASSEMBLY SET

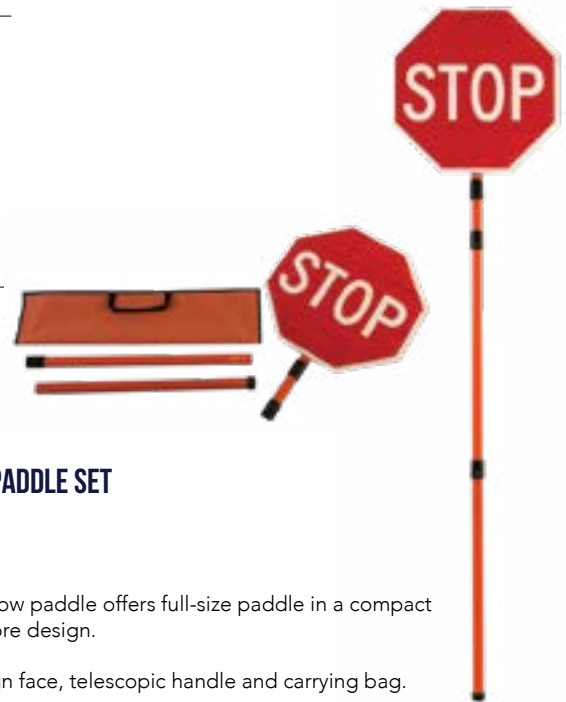

*Available by special order.

ACCESSORIES & PAVEMENT MARKINGS

RED FLAGS

24" H vinyl flag with 36" H wood staff
Meets MUTCD standards.

STOP/SLOW PADDLE SET

24" Octagon

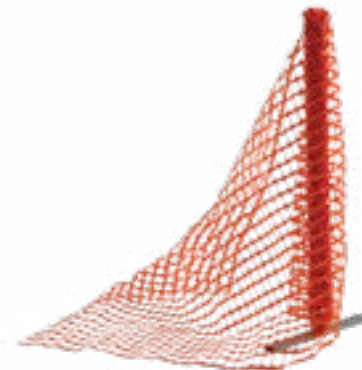

Roll-up stop/slow paddle offers full-size paddle in a compact and easy to store design.

Kit includes sign face, telescopic handle and carrying bag.

Meets MUTCD standards.

FLAG BRACKETS

ORANGE FENCING

4 ft. H x 100 ft. L

Rugged and reusable safety fence.

DANGER & CAUTION TAPE

3" W X 1000 ft. L

English/Spanish barricade tape.

SANDBAGS

26" H x 14.5" W

UV treated woven poly sandbag.
Available filled or empty.

BARRICADE LIGHT

Type A/C (Two sided visibility), D-Cell, 3 volt light, 3 way operation: Steady On, Flashing or OFF. Only operates at night and automatically turns off during daytime to extend battery life. Meets ITE specs and is NCHRP-350 approved.

Lens colors: red and amber

Also available in solar power.

VISA-LINE FOIL TEMPORARY PAVEMENT MARKING TAPE

4" W x 50 yds.

Highly economical solution when short-term temporary marking tapes are needed for construction or road repair areas.

DELTA LINE TAPE

4" W x 300 ft. L

Profiled pavement marking tapes with light-bouncing ridges.

Designed for long lasting reflective performance and dramatically improved nighttime visibility on both wet and dry pavements.

NON-REFLECTIVE CERAMIC PAVEMENT MARKERS

Type 929A, 4" Round.

Colors: white and yellow

NON-REFLECTIVE CERAMIC PAVEMENT MARKERS

Type A, 4" Round.

Colors: white and yellow

TYPE G CLEAR

TYPE B CLEAR

TYPE C RED AND CLEAR

TYPE H AMBER

TYPE BB BLUE

TYPE AR-D AMBER

ACCESSORIES & PAVEMENT MARKINGS CONT.

CONCRETE BARRIER REFLECTORS

9 square inches of reflective tape

Typical applications include temporary and permanent concrete barriers, concrete bridge parapets and wooden guardrail posts.

1 sided or 2 sided reflectivity, pre-drilled holes for quick installation.

Colors: yellow or white

LOW PROFILE BARRIER WALL MARKER

16" H

Designed to be mounted on low profile concrete barriers.

Colors: yellow or white

DRUM/BARREL REFLECTOR

Add additional visibility to any barrel by adding a two-sided barrel reflector.

DAPCO ADHESIVE 795A

One-part, fast-cure adhesive for bonding barrier markers, guardrail reflectors and other delineated products. Requires no mixing, use with standard caulking gun.

HALF TRACK

4" H x 4" W

Double-domed surface, reflective, self-adhesive, effective for long-term temporary road markers.

Colors: yellow or white

TEMPORARY OVERLAY MARKERS (TOM)

Primarily used for short-term temporary lane line markings in work zones that involve asphalt paving projects. Reflective sheeting on one or both sides. Simple install and removal with self-adhesive backing.

Colors: yellow and white
